Skills

GENERAL PROGRAMMING
C, C++, Python, JavaScript , TypeScript

LIBRARIES/FRAMEWORKS
Pytorch , Tensorflow , React , Node JS ,
MongoDB , Express

OPERATING SYSTEMS
Windows , Linux

LANGUAGES
English, Hindi

Relevant Courses

Data Structures and Algorithm
Neural Networks
Database Management Systems

Work Experience/Projects

Dec 2023 **Text Generation AI**   **Github | Project**
Topic: Artificial Intelligence

Developed a transformer based neural network for creative text generation trained on a small custom dataset. The model has over 160 million parameters and takes an input prompt to output creative text.

Achievements

May 2024 **Algo University Contest**   **Certificate**
Obtained college rank of 29 out of 120 students in the contest and a completion certificate for graphs camp held by Algo University.
